Jainam Sheth, Computer Science Student – IT Infrastructure & Systems

Skebokvarnsvgen 366, Stockholn 12490, Sweden, +46767591491, jainamsheth1234@gmail.com

Date of birth	20061127	Nationality	Swedish
Place of birth	India		

EMPLOYMENT HISTORY

Sept 2025

Allakando, Coach — Stockholm

- Delivered structured academic support to students, helping them solve problems methodically and improve their performance.
- Planned, organized, and documented lesson content and student progress.
- Adapted explanations based on individual learning needs and levels of understanding.
- Maintained ongoing communication with families regarding goals, progress, and expectations.
- Managed scheduling and preparation independently, ensuring reliability and consistency.
- Conducted continuous follow-ups and provided constructive feedback to support long-term development.

Through this role, I gained independent responsibility, clear communication, and systematic problem-solving — competencies that are directly transferable to IT operations and technical support environments.

EDUCATION

Aug 2021 — Jun 2024

Upper secondary school diploma, Amerikanska Gymnasium — Stockholm

Scored 20.00 Merit points out of 22.5

Aug 2024 — Jun 2029

BSc + MSc in Computer Science / Information Technology (Integrated Program), KTH (Kungliga Tekniska Högskolan) — Stockholm

I am currently enrolled in KTH Royal Institute of Technology's integrated BSc + MSc program in Computer Science, a top 100 engineering university in the world known for its cutting-edge research, strong focus on sustainability, and global collaborations in innovation and technology.

Relevant areas of study:

- Programming and algorithms
- Operating systems fundamentals
- Computer systems and architecture
- Software engineering principles
- Computer networks

Currently pursuing advanced studies in IT infrastructure and system-oriented development.

SKILLS

Programming: Python, Java	Experienced	IT security knowledge	Experienced
Microsoft Office Suite: Excel, Word, PowerPoint	Experienced	Analyzing problems and developing practical solutions	Experienced
Version control: GIT	Experienced	Operating Systems: Linux (basic administration, terminal usage)	Experienced

LANGUAGES

Swedish	Very good command	Hindi	Native speaker
English	Native speaker		

EXTRACURRICULAR ACTIVITIES

Hackathon events

Hackathons and Technical Projects

- Actively participate in hackathons to develop programming and collaboration skills.
- Explore new technologies independently and build small technical projects to deepen understanding of systems and software development.
